

IN THE CLAIMS:

Please amend the claims as follows:

1. (Amended) A method of presenting an audiovisual signal to a user's audiovisual display monitor comprising:

receiving a command from the user;

responding to the command by assigning an assignable computing device (ACD) to the particular user only;

establishing a communications link between the user's audiovisual display monitor and the ACD;

presenting a menu containing a selection of video programs to the user's audiovisual display monitor with the ACD;

selecting one of the video programs for display; and

routing said selected video program to the user's audiovisual display monitor.

16. (Amended) An apparatus for presenting an audiovisual signal to a user's audiovisual display monitor comprising:

a programming subsystem;

a Room Communication Subsystem (RCS);

a Site Management Subsystem (SMS);

said RCS connecting a plurality of user's audiovisual display monitors to the system;

said programming subsystem including a plurality of audiovisual serving devices communicating with the user's audiovisual display monitor over said RCS; and

said SMS assigning an Assignable Computing Device (ACD) audiovisual serving device to a particular user to present a menu containing a selection of video programs to the particular user's audiovisual display monitor over said RCS.
